

SORGENTE

```
graph LR; S[SORGENTE] --> C[CANALE]; C --> D[DESTINATARIO];
```

The diagram illustrates a three-stage process flow. It begins with a rectangular box labeled 'SORGENTE' (Source). An arrow points from this box to a second, narrower rectangular box labeled 'CANALE' (Channel). A second arrow points from the 'CANALE' box to a final rectangular box labeled 'DESTINATARIO' (Destination). All boxes have a black border and are set against a white background.
